CERTIFIED: The Network Source certifies that it has provided the Social Security Administration ("SSA") with authorization to release the results of the search of SSA records on the Target information and SSA reports as follows:	
<b>X</b>	<p>U.S. Social Security Administration records <b>DO VERIFY</b> that the Target Social Security Number matches the Target Name and Target Date-of-Birth shown above in the Order Information Submitted for Verification By Requester.</p> <p style="text-align: center; color: blue;"><b>VERIFIED AS MATCH</b></p>
	<p>U.S. Social Security Administration records <b>DO NOT MATCH</b> the Target Social Security Number with the Target Name and Target Date-of-Birth as submitted in the Order Information Submitted for Verification By Requester.</p>

**If the Social Security Administration's records do not match the Order Information Submitted for Verification, you may wish to do the following:**

- Ask to see the individual's Social Security Card to assure that the SSN, name and provided date-of-birth were correctly shown on your order.
- If an error was made on the order, consider resubmitting corrected information.
- If the SSN card and your order information match, consider asking the individual to go to the nearest Social Security Field Office to determine the nature of the problem. He/she must take one or more forms of identification with them (preferably one should be a picture ID) plus the Social Security card they are currently using. Examples of acceptable proofs of identity are:
  - Driver's license
  - Health Insurance Card (not Medicare)
  - Employee ID Card
  - Military records
  - Passport
  - Insurance policy
  - Marriage or divorce record
  - School ID Card
  - Adoption record

**If the SSA's records are wrong, only the number-holder can request that the record be corrected.**
